WEX-C150 LED Grow Lighting

110~240V 150W LED Grow Lighting
3W×52 pcs LED
Wavelength: Red 630nm; Blue 460nm
Color: Red or Blue or Red-Blue (ratio can be customized)
Suitable height above plant: 0.5~4m

Used in these fields:

Greenhouse Lighting
Hydroponics Lighting

Features

- ● LED grow light is newest technology in plant growth;
- ● It saves 80％ energy compared to HPS or MH light
- ● Built-in switching mode power, no need outside ballast or driver, convenient to use
- ● Easy to install and use, plug into the electric outlet(120/230Vac) directly
- ● Promote the plants growth,budding, flowering
- ● About 90％ light of LED can be absorbed by plant, but only 10％ light of HPS or MH absorbed
- ● Less heat ,Reduce grow room temperature 10～15℃ compared to HPS or MH light
- ● Replace 400W to 600W HPS grow light
- ● 120 degree wide beam angle
- ● 3 years warranty

Performance

| Item	Value	Item	Value
Voltage	120/240V 50/60 Hz	size	$1000 \times 113 \times 113$
power	150W	packing	$1080 \times 175 \times 175mm$
current	0.65~1.25A	N.W	6.3Kg
Color	Red/Blue/Red-blue	Working environment	-20~40℃
Wavelength	Red: 630nm；Blue: 460nm	Storage condition	-40~85℃
Lifetime	50,000 hours	Height above plant	0.5~4m
